

AHROR TURGINBOYEV

Backend Developer

+998934923327

@turginboyevahrorbek7@gmail.com

📍 Uzbekistan, Namangan

SUMMARY

I have been building **TelegramBots** and websites in **PHP** programming language and **MySQL** database for **3 years**. After that I learned **Python** programming language and **PostgreSQL**, **Algorithms**, **Data structures**. I am currently learning **new technologies**.

EXPERIENCE

Backend Developer

GlobalSoft

📅 03/2021 - 11/2022 📍 Namangan, Chust

- Minimize queries in the database and automate the system.
- Creating a telegram bot for trading products in PHP.
- I built a website to automate the company's workflow and improve productivity.
- A product delivery system was developed and errors were eliminated immediately.
- The speed of searching and retrieving large data in PostgreSQL has been increased.

LANGUAGES

English Beginner Uzbek Native

PROJECTS

Blog site

🔗 https://github.com/akhroruz/django_blog

Website made in **Python Django** framework. **Celery**, **Redis** and **Django ORM** technologies were used.

Likee Video Downloader TelegramBot

🔗 <http://t.me/getlikeebot>

TelegramBot that downloads videos from **Likee**.

SKILLS

Programming

Python PHP SQL

Additional

Celery Docker Linux (Ubuntu)

Bash Redis Nginx Postman

Linode Gitlab CI/CD Git (Github)

PostgreSQL MySQL SQLite Cron

Django DRF Jinja2 FastAPI

Aiogram Async

Test (Unittest/PyTest) Web scraping

Sentry
